

Universal Dance Association is offering a new service to help teams with legality and safety questions. Teams will be able to email skills in throughout the year to receive a legality or safety response. This service will help teams get a response in a timely fashion and also give teams a response with a video attached back to use in situations where the skill may be in question. **Teams are not required to submit a safety video.**

To email a video, the following must be included:

1. The skill in question recorded by a team at practice. We are unable to accept videos of performances at competitions or of other teams.
2. All submissions must include the **coach, team and division**. Any submissions not including these items will not receive a response.
3. Videos may not be any longer than 30 seconds and must be able to view upright without rotating. Please do not submit a full routine.
4. The recording will be limited to attachments only. Links, video sharing and YouTube style videos will not be accepted. While this does limit the video size, you are able to submit multiple videos.
5. All video will either receive a legal or illegal response. *if the video is inconclusive, you will receive a response as to why the video was unable to make a judgement. It is up to you as a coach to resubmit the video to be reviewed.

If you know that your video does not meet any of the requirements above, please resubmit the video. Only videos that meet the above requirements will be reviewed.

Please send all videos to UDARules@varsity.com

Please note: Performing the skill at a prior event does not make the skill legal nor would it warrant a warning. Only submitting the skill will make the skill eligible for a warning. UDA cannot guarantee the ruling at non UDA events. This includes other Varsity Brands and State Association Events.
