

Downloading Music Tracks to Computer/CD

1. Log into clementune.yesfitnessmusic.com from a desktop computer or laptop (this cannot be done from a phone or iPad) and sign in using the same email address and password that you set up to initially retrieve your album.

The screenshot shows the Clementune Sign Up page. It features a green header with the Clementune logo and name. Below the header, the page is titled "Sign Up". There are four input fields: "Email", "Confirm Email", "Password (min. 6 characters, no spaces)", and "Confirm Password". A "SIGN UP" button is located below the password fields. At the bottom, there are links for "Already have an account? Sign in." and "Forgot your password?". A large blue arrow points to the "Email" input field.

2. "Click an album to download" under YOUR ALBUMS" which will show the albums that you previously received.

The screenshot shows the Clementune User Portal. It features a green header with the Clementune logo and name, and a "Logout" link. Below the header, there is a "Redeem a code" section with an input field and a "REDEEM" button. Below that is a "Your Albums" section with the text "Click an album to download". A large blue arrow points to the "Varsity Spirit Mix Multi-BPM" album card, which includes a logo for "Varsity Spirit" and the text "Varsity Spirit Mix Multi-BPM".

3. This process will download the song files to a zip drive that you can utilize to burn a CD.
4. Please remember that this option will not show up on the app but only on a desktop or laptop.
5. Note: video files can only be viewed on the Clementune app and cannot be viewed or downloaded on a desktop or laptop.
