

Parent Roster Guide

Complete these quick steps after your coach sends your Team Invitation link.

Good to know: Creating a profile and completing the waiver takes about 5 minutes. Parents do not have access to team information.

What you need to do

1. Open the Team Invitation link sent by your coach. Please note this link will expire in 8 days.
2. You will fill out YOUR information and select parent as your role first. Do not select athlete and fill in your athlete's information first.
3. After filling out your information, you will then add your athlete by clicking "Add Participant Profile."
4. Enter your athlete's details, then select Athlete as their role.
5. Save & submit the participant profile.
6. You may repeat this step as needed if you have multiple athletes.
7. Complete the season waiver when prompted.
8. You are done! Your athlete will now appear on the team roster for your coach.

A few quick reminders

- Each parent creates their own Parent account first, then adds their athlete.
- Athletes under 18 must be added by a parent or guardian.
- Athletes age 18 and older may create their own profile.
- Your coach will choose which athletes are rostered for each event. You do not need to register your athlete for an event yourself.
- If your coach manages multiple teams, use the invitation link for your athlete's correct team.

Need help

If you did not receive a Team Invitation link, cannot access it, or are unsure which team link to use, please contact your coach.
